

BISHAL ADHIKARI

07- Besishahar, Lamjung | 9856046798 | abishal737@gmail.com

Profile Summary:

An immensely accomplished civil engineer, I bring a wealth of extensive experience to the table, actively engaging in and contributing to a diverse array of infrastructure, utilities, structural, highways, drainage, and flood prevention projects. My fervent enthusiasm for continuous learning and the meticulous honing of both new and existing skills is readily evident. I derive immense satisfaction from adeptly applying established analytical methods and engineering principles to skillfully address challenges. Genuinely eager to secure a challenging role within an engineering firm, my aspirations extend beyond early responsibilities to encompass a trajectory that promises a progressive career path. My unwavering commitment involves ensuring the seamless commencement and timely completion of projects in strict adherence to the estimated duration. With the innate capability to meticulously micromanage, control, and oversee all facets of civil engineering construction work, I am dedicated to fostering a congenial environment that is highly conducive to the successful completion of projects. Over a distinguished career spanning more than 2 years, I have served as a dedicated site engineer in a related field, continually enriching my expertise and proficiency. Furthermore, for the past two years (since 2022), I have extended my impact to the social development sector, assuming roles such as sub-engineer and shelter engineer within NGOs. In both sectors, my experience has been comprehensive, covering various aspects, including designing, estimating, planning, procurement process, HR process, coordinating with government stakeholders, and implementing intricate designs with precision.

Key Skills:

- A demonstrated and proven ability to work collaboratively with others, showcasing exceptional teamwork skills that contribute to a harmonious and productive work environment.
- Exceptional communication skills, both within the organization and when interacting with external stakeholders, reflecting an ability to articulate ideas clearly and effectively.
- Adept problem-solving skills coupled with a decisive decision-making ability, ensuring the capability to navigate and resolve challenges effectively.
- Demonstrated efficiency in gathering and processing information, showcasing a keen ability to assimilate and analyze data with precision and effectiveness.
- Proficient time management skills underscored by a quick learning aptitude and a self-motivated approach to tasks, ensuring adaptability and prompt skill acquisition.
- Proven capacity in handling a staff complement, exemplifying strong leadership skills and the ability to manage teams effectively.
- Exceptional interpersonal skills combined with a strong presentation acumen, allowing for impactful and influential communication within various professional settings.
